

The Derry Family to Japan

May - June 2018

Dear Prayer Partners,

These last couple of months have gone by quite quickly. We have been in some meetings and a missions conference. I have also been in several camp meetings and Jubilees throughout the last two months. God has been good in allowing us to see another supporting church and get more meetings scheduled for this year and next. We have traveled through Kentucky, Ohio, and West Virginia. I can only praise God for keeping us safe on the roads.

Presenting our Ministry at a Jubilee

We are now over 18% almost 19 and are praying to hear back from churches soon. There have been many churches these last several months that we have visited that have not taken us on yet, but may sometime this year. Our prayer is that God will continue to lay our ministry on the hearts of His people and that we will get calls soon from churches that have taken us on.

We spent some time near home this June and I took advantage of it to go soul winning for our home church. We were also setting up for Vacation Bible School so I made sure to get invitations out each time I was out soul winning. It was great to spend time with a couple of different people and share a little from God's Word with them and pray. They said they were Christians, but I don't know for sure if they had been saved based on what they said. I did encourage them to seek God and to visit our church. God only knows the seeds that have been planted and I pray that they will listen to the Holy Spirit's conviction.

Bella turned three years old at the end of May, and we had a small family birthday party with a few of her cousins and Charity's parents. It's hard to believe how fast she is growing up! She loves to sing (Patch the Pirate songs are a big hit), pretend, make up imaginative stories with her toys, and loves pink/frilly accessories of any kind. We love our sweet girl and all the excitement she brings to our family. We are truly blessed! We also took the opportunity, when we were leaving Cincinnati, to stop to visit the Ark! The children enjoyed all the different animatronics that were in the ark and we got to enjoy seeing what a full-scale ark would look like. Just amazing!
